

FamilyTreeDNA

Certificate – Y-DNA

This Certificate confirms that you have had your DNA analyzed by Family Tree DNA. The outcome from each of the sixty-seven Loci examined is reported in the table below. For your benefit we have listed the Locus designation for all sixty-seven Loci utilized by the geneticists supporting our company. If your alleles for the sixty-seven Loci match another person exactly, then you share the same Haplotype. DNA testing is a genealogical tool designed to aid individuals wanting to “connect” to other relatives lost in time and where the paper trail no longer exists.
